Physician's Letter of Medical Necessity (LMN)

This letter is to request benefits of the FDA cleared BioWave® Neurostimulation Pain Therapy System HCPC CODE: E1399 performed for said athlete. Due to the patient's condition, BioWave treatment was performed to decrease pain and accelerate return to function. BioWave uses a patented electronic signal technology allowing delivery of the electrical signals directly to the surface of pain nerves which prevents the formation of the pain signal and blocks the transmission of chronic, acute and post-surgical musculoskeletal pain. Based on the patient's condition and medical need, our current treatment plan includes use of the BioWave® system.

RX For BioWave Devices and Electrodes *Treatment for chronic, acute & postoperative pain*
